This report relates to The Great Projects facilitated by **Equation** and is based on questionnaires asked of pupils and teachers at 3 points: prior to the project starting, at the end and one month later. We also ask teachers who attended any Twilight sessions held in this period.

This allows us to generate baseline scores, measure change at the end and recognise one month later how much change has been retained. We anticipate that the retention score or percentage will be lower but remaining higher than the baseline score.

When we have asked for a score, this has been asked out of 10, with 10 being the most positive.

Comments from teacher

- *"Brilliant program to bring awareness to vital issues in and out of school."*
- *"Very beneficial to the children. They were engaged in activities and enjoyed it. Only suggestion would be to minimise long sections of talking where possible."*
- *"Didn't get a chance to do it."*
- *"Stimulated good discussions."*
- *"Helped them a lot to express their feelings."*
- *"Generally met although 1 pupil did not engage with project at all."*
- *"More video clips/cartoons would have been superb!"*
- *"The promise hand and happy/unhappy relationship was good."*
- *"I think the messages of the GREAT project were well delivered. I do think there were a couple of sessions where there was too much adult led talk which for some children can struggle - especially in afternoons."*
- *"During the sessions children have been really engaged with major issues and retained key information. They have been able to discuss issues and reason, listening to others opinions. I think shorter sessions over a longer period of time would lead to greater outcomes outside of each session and allow children a deeper understanding of main issues."*
- *"Both Caroline and Lorraine have made the children feel comfortable to openly speak out about sensitive issues covered during the sessions. The material delivered was age appropriate therefore enhanced the children's*

learning. Thank you once again!"

- "I do make links where I can but not at a planning level."
- "2 hours is a long session for some (about 1/3 maybe) of Year 5 - Perhaps a 10 minute run around half way through will help concentration."

- "It has allowed the children and myself to think about relationships"
- "Very detailed content"
- "Very useful. A great way to learn about how a relationship should be and what should happen. Maybe a few more practical activities rather than a long recapping? Thanks"

- "All four sessions delivered in an engaging manner. Thank you to both of you. It has been brilliant - we'll book again!"
- "Not much impact, in school, out of session"
- "In the session - not out of"
- "The success of the great project is always dependent on the deliverers. Caroline and Louise have been brilliant. They have pitched the lesson perfectly. Behaviour management and systems to encourage the children to participate were super."
- "Sessions need to be more engaging. Lots of children didn't want to come to the session due to this."

- *"All the case studies we looked at represented the majority (males causing the abuse) and were none representing the minority (females causing abuse). This could lead to stereotyping in this area... (content as a*

whole was really helpful)."
